

As part of the Acorn Childcare Centre we maintain strong links with Malcolm Sargent Primary School, facilitating and supporting the children's transition from nursery to their first year of school. We also manage the school wrap around care within the Malcolm Sargent setting.

Our mission here is to provide childcare that allows parents to feel comfortable that their children are safe and happy before and after school. We focus on providing activities that promote children's participation, meeting individual needs and interests.

For more information about our setting or to register for an application form please get in touch—we'd love to hear from you:

ACORN CHILDCARE CENTRE PROSPECTUS

Welcome to the Acorn Childcare Centre.

This prospectus aims to provide you with a brief introduction to our setting, and will hopefully give you an overview of our aims, missions and approach to meeting your child's individual needs.

At the Acorn Childcare Centre our aim is for our children to have the best possible start in life. Our mission is to provide the highest quality care and education for children that is child-centred, holistic, and values all children as individuals.

Our centre is set within the grounds of the Malcolm Sargent Primary School, in a purpose-built nursery which has been designed around the needs of the children. All of our rooms have access to outside play areas as well as the school's large playing field. In addition, we have an outside creative deck, bike track and woodland area.

Our setting aims to:

Encourage enquiry through children's play that is safe and secure at all times; overseen by our highly trained staff.

We aim to ensure that they develop the confidence and enthusiasm to learn. Children learn best when they are safe and secure. We promote safeguarding to be everyone's responsibility throughout the setting to maintain a robust approach to wellbeing.

We will respect the parents as the child's first educator and work in partnership with them to support the children's learning within both the home and the Centre, in an approachable manner.

The Centre offers care from six weeks to five years. Each of our five rooms are designed with a calm and natural feel, all are spacious and flooded with natural light. From Little Acorns, to Mighty Oaks, each room is age specific and delivers an engaging and enabling environment.

Within the Centre, four of our staff are fully qualified special educational needs and disability co-ordinators. They are committed to making the centre inclusive and accessible for all children, to meet their full potential within our childcare setting. Our dedicated staff are happy to meet with parents to discuss individual need.
